

Netherlands Astronomy Conference 2026

Wednesday 13 May 2026

Plenary 4 - Lamoraalzaal (13:45 - 15:15)

time	[id] title	presenter
13:45	[121] HyperFlash: A collaborative high-cadence program to observe the most energetic FRBs	OULD-BOUKATTINE, Omar
14:00	[119] Tracing the Cosmic Web with the Most Distant Fast Radio Bursts from MeerKAT	PASTOR-MARAZUELA, Inés
14:15	[86] The X-ray Universe at ultra-high resolution: simulating the X-ray Interferometric Space Telescope	STÖCKER, Philipp
14:30	[96] The key to unlocking the origin of long-period transients	BLOOT, Sanne
14:45	[117] Learning Cosmic Dawn with quasar IGM damping wings	KIST, Timo
15:00	[103] The First Search for Ultracool Dwarfs using the CHIME Radio Telescope	NOLAN, Tia
